Reading Study

Research Ethics Board Approval Number 1031627

We are seeking participants

for a study examining caregivers storybook reading experiences with autistic children.

We are looking for caregivers who:

- Have a child on the autism spectrum between the ages of 4-6 years old
- Have read storybooks with their child

The study consists of 1 session of approximately 30-45 minutes. The session will be held online over Microsoft Teams, and you will be asked some questions about your reading experiences with your child. To thank you for your participation, you will receive a small compensation after the session.

For more information or to see if you are eligible to participate, please send us an email at
